

Dax Outlook 2015 W28

The Dax traded sideways last week awaiting the Greek Referendum.

The MACD is bullish, the RSI is at 43,53 and the VDAX rose again to 27,09.

The Greek "No" will have to be digested during the next week. It seems quite unclear what the future options are. A fall of the Dax to 10'000 is not impossible. It will be another very interesting week ahead...
